Vessel Information

Description: Alexander Marine
Australia are pleased to
present 'Boonooroo
II' to the market as
worldwide central agents.

This beautiful 2013 model
73ft flybridge motoryacht
was conceived by a
knowledgeable yachtsmen
as a moderate sized yet
extremely capable vessel
able to be operated with
minimal, if any, crew.

Her pedigree is assured with Exterior and Interior design by Guido de Groot. Frisian Shipbuilding constructed her hull and superstructure to Lloyd's Certification. Naval architecture was by Ginton Naval Architects. Hence she has been influenced by a powerhouse of respected and iconic European marine industry professionals.

'Boonooroo II' was designed and built in Europe over the course of several years to exceeding standards throughout. Both with respect to her beautiful internal finishes, and importantly her blue water engineering as she is intended to cross the oceans of the world in unsurpassed safety and comfort.

On approaching 'Boonooroo II' you will observe her gleaming paintwork, modern styling and exquisite attention to detail. From the moment you step on board the meticulously laid teak decks feel inviting underfoot. Both the cockpit and expansive

flybridge offer
entertaining and or dining
zones with exceptional
views.

As you step inside the
vessel you are drawn to
the comfortable saloon
seating area which is
accentuated by timeless
joinery details, thoughtful
wall panelling detail and
soft furnishings. A dinette
is immediately adjacent
the well-appointed galley
forward of the saloon
area. The pilothouse
provides excellent vision
underway and equipped
with recently installed
Furuno touch screen
electronics including
numerous duplicated
systems.

Below deck guests have a
choice of three
well-appointed cabins
each with their own toilet
and shower. The highlight
is the full-beam
mid-master cabin.

Aft of the well laid out
engine room
'Boonooroo
' features crew
accommodation, aft
access to the swim
platform via a large
remote controlled
electrically operated
garage door, and likewise
a spacious crew mess area
- complete with the

ship's laundry and additional refrigeration.

'Boonooroo II' will sprint to over 20 knots when required, and is stabilized for comfort. Her 12,000 litres of diesel allows for ultra long range cruising and makes her well suited as a private mother ship supporting a sports fishing vessel. She also has provision to carry two tenders for water sports activities.

Undoubtedly one of the finest motor yachts in Australia, 'Boonooroo II' presents a rare opportunity for an astute buyer to acquire a heavily customized and meticulously maintained motor yacht in turn key condition ready for her next adventure.

Alexander Marine Australia as worldwide central agents welcome your further inquiry. 'Boonooroo II' is offered for sale by expressions of interest.
