Vessel Information

Description: 2011 Alaska 46 Flybridge "GYPSEY"

Presenting in exceptional, near-new condition, Alaska 46 Flybridge "GYPSEY" has been meticulously loved and maintained by her owners since launch. Fresh from her annual yard period, including full main engine and generator servicing, antifoul, prop speed, and complete hull and topside polish, she is ready for immediate enjoyment.

The timeless lines of the Alaska Motor Yachts range are on full display here, offering the perfect blend of classic elegance and modern onboard amenities. GYPSEY features a highly practical two-cabin layout, a spacious midship stateroom with a queen size bed and private ensuite. The forward guest cabin is also ensuited, and the saloon dinette converts to create additional berths and comfortably sleeping up to six guests.

Designed for effortless cruising and entertaining, the expansive cockpit sits beneath a hardtop, and is an area set up to lounge and dine in for up to six people. The signature pop-up bulkhead window and bi-fold saloon doors seamlessly connect the cockpit to the

saloon and galley, creating a wide-open flow from the hydraulic duckboard right through to the forward saloon. The lower helm station benefits from an opening side door for excellent ventilation and easy access to the full walk-around decks, a standout feature for safe movement to the foredeck.

A staircase leads to the well-appointed flybridge, complete with hardtop, brand-new strata glass clears, dual helm chairs, forward lounges, and a dedicated drinks fridge. GYPSEY is also superbly optioned with a hydraulic submersible duckboard, jet-ski cradle, and a crane fitted to the aft flybridge for tender handling.

Powered by reliable twin Cummins QSB 5.9L diesel engines showing only 480 hours, along with a low-hour Onan generator (170 hrs), GYPSY offers efficient cruising performance and complete confidence for extended trips.
