Vessel Information

Description: 2008 Intrepid 370 Cuddy
Offshore Performance, Luxury Comfort & Recent
Refit

AMT Marine is proud to present this 2008 Intrepid 370 Cuddy, one of the finest American-built centre consoles available on the market today. Renowned for their premium construction, innovative design, and outstanding offshore capability, Intrepid vessels have earned a reputation among serious boaters for delivering a class-leading combination of performance, comfort, and versatility. Having recently undergone a refit, this vessel presents in outstanding condition and is ready for her next owner to enjoy immediately. Whether your passion is offshore fishing, island hopping, entertaining family and friends, or weekend escapes, the Intrepid 370 Cuddy delivers a boating experience that few vessels in her class can match.

Legendary Intrepid Performance

Built on Intrepid's renowned stepped Kevlar composite hull, the 370 Cuddy offers exceptional ride quality, efficiency, and handling in a wide range of sea conditions. Powered by triple Mercury 300hp Verado outboard engines, she cruises effortlessly at

approximately 26 knots and is capable of achieving speeds in excess of 50 knots when required. This impressive performance allows owners to comfortably cover long distances, reach offshore fishing grounds quickly, or enjoy exhilarating day cruising with confidence. Manoeuvring is made simple with the addition of a bow thruster, while the Simrad autopilot ensures stress-free navigation during longer passages.

Premium Helm & Navigation Equipment

The helm station has been thoughtfully equipped with quality electronics to provide complete confidence on the water. Positioned beneath the protective canvas T-top, the skipper benefits from excellent visibility and a highly functional command centre featuring:

- Twin Garmin 12-inch touchscreen multifunction displays
- Garmin 48nm radar
- Simrad autopilot
- Bow thruster controls
- Mercury engine instrumentation
- VHF communication equipment
- Comprehensive switch panels and vessel monitoring systems

Together, these systems provide effortless navigation and vessel management whether cruising the coastline or heading offshore.

Spacious Cockpit Designed for Fishing & Entertaining

The Intrepid 370 Cuddy offers a highly versatile cockpit layout that caters equally to serious anglers and families seeking comfortable day boating. The expansive aft cockpit provides ample room for

fishing activities, while the removable rear lounge behind the helm allows the space to be configured to suit the occasion. Keen fishermen will appreciate the twin telescopic outriggers and generous working area, while guests can relax in comfort when entertaining. A significant recent upgrade includes NEW Sea Decking throughout the vessel, enhancing both comfort and aesthetics while providing secure footing throughout all deck areas.

Relaxed Social Spaces Throughout

Forward of the helm is a spacious seating area that can quickly be converted into a comfortable day bed, creating an ideal space for relaxing at anchor or enjoying time with family and friends. Further forward, the bow features an additional sun lounge, providing another inviting space to soak up the sunshine and enjoy panoramic views while underway or at rest.

The combination of multiple seating and lounging areas creates a remarkably social layout that feels much larger than many vessels of a similar size.

Comfortable Accommodation Below Deck

Stepping down into the cabin reveals a surprisingly spacious and well-appointed interior that has also benefited from recent upgrades, including new Sea Decking throughout.

Designed to comfortably accommodate overnight stays, the cabin features:

- Convertible double berth/lounge arrangement
- Private enclosed toilet and shower
- Refrigerator
- Microwave
- Sink and food preparation area

- Ample storage throughout

The flexible layout allows the cabin to function as both a comfortable lounge during the day and a practical overnight retreat when required. Whether enjoying a weekend away or simply extending your day on the water, the accommodation provides all the essential comforts expected from a premium sports cruiser.

Turn-Key Opportunity

Fresh from a refit and offering an exceptional balance of offshore performance, luxury appointments, fishing capability, and overnight accommodation, this 2008 Intrepid 370 Cuddy represents an outstanding opportunity to secure one of the most respected centre console designs ever produced. Presented in excellent condition and ready for immediate use, she is equally suited to offshore adventures, family cruising, entertaining, and weekend escapes. Currently located at Sovereign Island Marina and available for immediate inspection.
